In our last faculty newsletter, we described growth of the Partners Asthma Center to include Newton-Wellesley Hospital and North Shore Medical Center. Partners Asthma Center at North Shore Medical Center will be comprised of four practice sites and 13 physicians.

Our goal is to find a single, unified practice site for Partners Asthma Center at the Salem site, but for the time being the Allergy, Pulmonary, and Pediatric Pulmonary practices will collaborate

from a physical distance.

Our practice sites in Salem include:

Salem Hospital
